

## Biography of Dan Morris

My wife and I have been members of MAFCA and the Sooner Model A club for over 30 years. We are also members of the Tulsa Model A club.

Recently, we were part of the development board for the Oklahoma City Restorers Group. Over the years, I have been president, board member, and served on committees.

We have also been involved in the planning of several Regional Meets hosted by both the Sooner Model A Club and the Tulsa Model A club. My wife and I were involved in planning the 2017 Membership meeting held in Oklahoma City. Chaired by Vaughn Cille Weidner.

I have restored two model A's. I am working on my third. Of course, I have assisted many others in making repairs and getting their Model A's roadworthy.

During the Loveland Colorado National meet, we had our car judged in the Restorers Class. In Reno 2018, my wife and I attended the seminar on the Restorers Class and decided to sign up to be evaluators. We did our first apprenticeship in Reno. We had planned to turn in our tests and complete our second apprenticeship at the 2020 Kerrville National that was cancelled.

In 2022, We completed our second apprenticeship and turned in our tests to be evaluators. The Restorers Class Evaluations are exciting to us. Most persons involved in the hobby can participate in this class. The Model A's we own are drivers - cars for having fun driving around, not ones for high point judging.

I am excited to be a member of the Restorers Class Committee.
